Family Program

FAMILY ORIENTATION
A successful college experience requires a partnership between you, your family and the university.

We recognize your family plays a pivotal role in your success, so we have created a family program for them that runs parallel to your session.

Families will learn about OSU culture, academic services, scholarships and financial aid, campus safety, parental rights and academic services, scholarships and financial aid. Engagement specialists build supportive relationships with freshmen for the purpose of developing individual strategies that ensure a successful transition from high school into college life. One method for accomplishing this is to encourage students to participate in Empower: Institute for Freshman Success. Empower is a year-long program that teaches professional development, academic success, cultural awareness and active participation in student organizations.

Financial Planning

Financial Planning Counselors meet with freshmen to educate them on financial literacy and employ a variety of tools and resources to encourage financial success. Our Financial Planning Counselors use a variety of methods to educate students and campus partners, including:
• Individual strategy meetings with education or overcome financial setbacks.
• Presentations in first-year seminars for the various colleges.
• FAFSA workshops for Empower: Institute for Freshman Success.
• Represent the Office of First Year Success at various campus events.
